Welcome from our Chairman and CEO

“

Climate change is the greatest challenge of our generation and the next ten years will be crucial. Together we must reduce CO₂ emissions and halt the rise in temperature. At Schneider Electric, our commitment to be carbon positive is fully aligned with our strategy and purpose. This engagement emulates innovation for an all-electric and all-digital world. We openly advocate for bold measures, at every level, to accelerate the emergence of a low carbon world and to live up to the demands of the younger generations.”

Jean-Pascal Tricoire,
